

SEM Lab Meeting week 3

Date: 23th November 2021

Main focus: Architectural draft, assignment 1

Chair: Bianca

Secretary: Dan

Agenda

- Progress we have made this week:
 - Improved the backlog according to the feedback we received
 - Updated gitlab issues to include the suggested template, milestones and assignees
 - Made a schedule to start implementing the must have features
 - Discussion points:
 - Assignment 1
 - Microservices schema
 - Plan for next week: Start implementing the must have features
 - Questions:
 - **Do we automate adding tables to the database? Should it be persistent?**
 - **How do assignments correlate to the issues? (What should be done for assignment 1)**
 - **What should the report contain?**
 - **How do you tag commits?**
-
